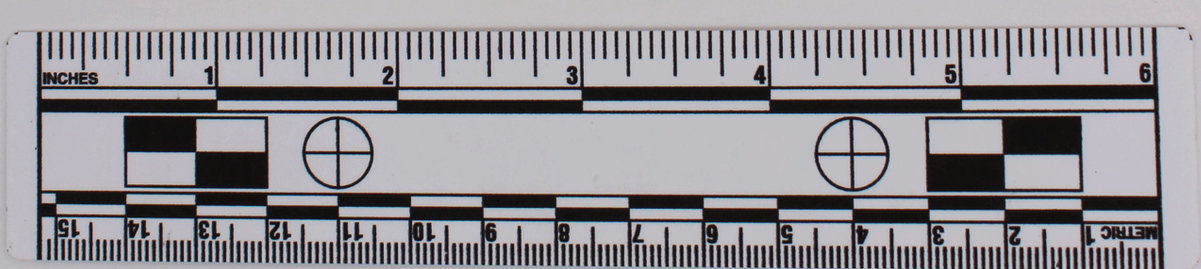
Tipton Ind.
June. 10 1922.

Dear Friend Alice:

I have been discharge, and am now home with the floks got my discharge on the second and started home that evening, took me just four days to get to Indiana.

The trip from Honolulu was not so pleasant as we ran into a storm and it grew very cool, and us boys being used to the warm Honolulu Climate, felt far from pleasant.



everything here at home still looks natural, just as it did when I left for the Army three years ago. The folks and I were surprised as I had not written for a few weeks and wasn't expected for another week.

I would liked to have stoped at Arcadia very much but conditions which I had not expected, would have made my stoping very difficult so I decided it would be better for me to come straight home.

Well Alice, I hate to send such a

short letter, but it seems like I can't think of any thing more to write.

As ever a friend,

Carl
